**History:** Tony grew up in an abusive home. His father was an alcoholic and when Tony was in junior high his mother became a Christian. His father abandoned him and his mother. Shortly thereafter, he died in a drunk driving accident. He moved with his mother to her home state, Arizona and remarried years later. After many years growing up sorting through his bitterness and pain, Tony became a Christian. Tony took a serious interest in running in high school and entered college as one of the fastest teenage track stars in the world. While out preparing for a track and field competition at his college, Tony was suddenly surrounded by a gust of wind. He heard a voice call out his name and, suddenly, a light knocked him unconscious for a few hours. When Tony awoke it was nightfall and he was late for a dinner engagement. Tony ran home in less than a minute. Startled by the speed in which he ran since it's usually a 30 minute run, Tony came to realize his new found power of superspeed. He went to tell his girlfriend June Silemon. When he arrived at her house, he found June and her family tied up and being robbed by a couple of thieves. Tony sprung into action, moving so fast that the hoodlums couldn't see him. They were soon captured and arrested. Tony decided to use his gift of super-speed to fight crime and evil as DesertWind.

**Powers/Weapons:** DesertWind has the power to run at tremendous speeds recorded at a maximum of 350mph. He can create wind gusts by vibrating his arms and can phase through walls by vibrating his molecules. DesertWind is always finding creative ways to use his speed powers.
